Resume

Information Systems Engineering graduated in 2018 from the UTN (National Technological University). Currently I work mainly as a web developer in various technologies, both frontend and backend.

In my spare time I research new technologies, read books, articles, papers and tutorials. The knowledge learned continuously allows me to be updated on the latest trends in the technology market.

- Programming languages knowledge:
 - PHP (Intermediate).
 - Dart (Basic).
 - React Native (Basic).
 - Javascript (Intermediate).
 - Vue (Basic).
- Frameworks:
 - Symfony.
 - Laravel.
 - React.
 - Flutter.
 - Nodejs.
- Others knowledges:
 - Machine Learning
 - Tensor Flow.
 - Basic learning algorithms.
 - Docker y kubernetes.
 - Continuous deployment with Jenkins.
 - Google's services and API:
 - Google Translator.
 - Google Analytics.
 - Google Firebase.

Experience

Web Developer

2016 - Currently

Work company: ECOM S.A.

Location: Resistencia, Chaco, Argentina.

I have dedicated myself to the design of websites, both the backend and frontend of different types for government entities, e-commerce, sports, news and social assistance. The main technologies that I used in the company are: Symfony in its versions 2.x, 2.x and 4.x, 5.x, and as regards ORM, Doctrine technology.

Likewise, I designed web systems in Wordpress and pure php. However, I also had the opportunity to participate in projects in Laravel, Vuejs, Android. I have experience in participating in multidisciplinary teams made up of professionals from different areas such as marketing, graphic design, project manager and business analysts, implementing the SCRUM methodology in conjunction with a Kanvan board for the administration of daily tasks.

Certifications
